

## RPA Engineering Appoints Wise as Electrical Engineer

**Wyomissing, Pa. (January 03, 2012)** – RPA Engineering ([www.rpaengr.com](http://www.rpaengr.com)), a leading engineering and design firm with six regional offices, has appointed Leah C. Wise as Electrical Engineer. She is based out of the company's headquarters in Wyomissing.

"Ms. Wise's background in architectural engineering and her specialized expertise in power distribution make her a welcome addition to our team," commented RPA Engineering President Rick Aulenbach. "In addition, her familiarity with the latest 3D modeling and drafting software programs, such as Revit, is a strong asset."

Wise previously served as an electrical design engineer with Cubellis Associates, Wayne, Pennsylvania, where she worked on a variety of residential, commercial, industrial and healthcare projects. Wise also served as an electrical engineering intern with Johnson, Mirmiran and Thompson in Sparks, Maryland and a design and construction intern with The Pennsylvania State University's Office of Physical Plant in University Park, Pa.

Wise earned a bachelor of arts degree in architectural engineering and a master's degree in architectural engineering from The Pennsylvania State University.

### About RPA Engineering

RPA Engineering is a professional engineering consulting firm offering comprehensive mechanical, electrical and process engineering, machine design, and structural analysis services. Operating for more than 21 years, RPA provides high quality, cost-effective engineering and design services from its Wyomissing, Pennsylvania headquarters, five regional offices and onsite corporate services. RPA Engineering was named in 2010 to the **Inc. 5000** list of fastest growing U.S. based entrepreneurial companies. As part of the list, RPA Engineering was named as one of the top 100 Engineering firms in the country. For more information, visit [www.rpaengr.com](http://www.rpaengr.com).
